At OCDC, our ongoing commitment and intention is to support children, families, and staff in their well-being as we work together to achieve our shared mission.

Message from the Executive Director

2022 began the shift to the new normal of our lives, including continuing to live with the pandemic, experiencing more extreme weather events, and suffering continued devastating wildfires. The true consequences of the pandemic are just emerging. Staffing challenges were at the forefront of challenges in 2022 and will continue to be in 2023. With all this, the families, staff and communities have risen to the challenge, supporting each other during these tumultuous times.

“...One thing is certain: If we merge mercy with might, and might with right, then love becomes our legacy and change our children’s birthright.” Amanda Gorman, First National Youth Poet Laureate from “The Hill We Climb”. This quote sums up the might, the strength, and commitment of OCDC staff for the services we provide that are so important for the children and families life foundations. It is the loving nurturing and deep commitment to mission that staff pour into all they do that makes this all possible. At OCDC, our ongoing commitment and intention is to support children, families, and staff in their well-being as we work together to achieve our shared mission.

Donalda Dodson, MPH, RN
OCDC Executive Director

OCDC Mission

The Oregon Child Development Coalition (OCDC) is a private, non-profit corporation established in 1971 that operates early childhood education programs in the state of Oregon and serves over 4,000 children and families in its different programs, including:

- Migrant and Seasonal Head Start and Early Head Start (MSHS/EHS),
- Early Head Start Childcare Partnerships Region X (EHS CCP RX),
- Early Head Start Childcare Region XII (EHS CC RXII), Oregon Pre-Kindergarten (OPK),
- OPK Prenatal to Three (OPK-P3),
- Preschool Promise (PSP), and
- Maternal, Infant, Early Childhood Home Visiting (MIECHV)

Mission: OCDC is dedicated to improving the lives of children and families by providing early childhood education, care and advocacy with unique and supportive services to enhance family growth and community success.

School Readiness: OCDC prepares children for school by focusing on early childhood care, education and teacher development, promotes economic opportunities for families and communities by providing services that support the workforce and, in turn, state and local economies, partners with the community by collaborating with dentists, doctors, educators, health care providers, emergency food care providers, school districts, employers and state and local service providers, and practices inclusiveness by welcoming all cultures and languages.

Wellness: At OCDC, we strive for a culture of well-being for all OCDC employees, partners, families and children. Equitable, inclusive, sustainable, and holistic well-being approaches are the foundation of our program. Empowering people and emphasizing well-being influences our agency's priorities, policies and procedures to ensure the achievement of the agency's mission. Through a trauma informed lens, we actively engage in reflective and responsive well-being practices, we demonstrate our shared values, establish and maintain trusting relationships, provide meaningful recognition and emotional support, ensure purposeful work, and promote work-life balance.

The Agency's efforts to prepare Children for Kindergarten

School Readiness Goals

OCDC has developed agency wide School Readiness Goals. These goals align with the Head Start Early Learning Outcomes Framework, Oregon Early Learning and Kindergarten Guidelines, and OCDC's current Self-Assessment and Quality Improvement Plan (SAQIP) for 2022.

- Goal 1: Children will Increase Self-Regulation skills and establish and maintain positive relationships.
- Goal 2: Children will expand expressive and receptive language skills. Dual Language learners will build home language skills while progressing in their English.
- Goal 3: Children will develop alphabet and phonemic skills.
- Goal 4: Children will develop their problem- solving skills.
- Goal 5: Children will develop their physical wellness.
- Goal 6: Children will demonstrate positive approaches to learning.
- Goal 7: Children and families will enhance the connection with local schools and community.
- Goal 8: Children will develop their Mental Health Wellness.

Under these broad agency goals, county specific objectives for children's learning are developed for each program.

Programs

Calendar Year Programs

Migrant, Seasonal / Early Head Start (MSHS/EHS)

Migrant and Seasonal Head Start and Early Head Start is a statewide federally funded program that provides comprehensive child development services to children and families. Migrant and Seasonal Head Start serves children of migrant and seasonal farm workers. Early Head Start provides services to pregnant woman, and infants and toddlers ages 0 to 3.

School Year Programs

Oregon Pre-Kindergarten (OPK)

Oregon Prekindergarten serves children of 3-4 years of age and their families. A State funded Head Start program that provides education and child development services, helping prepare young children for school.

Oregon Pre-Kindergarten-Prenatal to 3 (OPK-P3)

Oregon Prekindergarten serves children of prenatal to 3 years of age and their families. A State funded Early Head Start program that provides families with complex social, economic, and health needs the support they need to ensure effective child development in the earliest years.

Preschool Promise (PSP)

Preschool Promise (PSP) offers free, high-quality preschool to Oregon families who are living at or below 200 percent of the Federal Poverty Level in Oregon. Serving children aged three and four, PSP is a publicly funded program and complements other early learning programs such as Oregon Pre-Kindergarten. PSP expands access to culturally responsive early learning programs.

Early Head Start Childcare (RXII EHS CCP)

Early Head Start Childcare Region XII (EHS CC RXII) – serves children who are 6 weeks to 3 years of age and is a federally funded program that provides comprehensive child development services and complements the Migrant and Seasonal Head Start Services.

Maternal, Infant, and Early Childhood Home Visiting (MIECHV)

This program provides home visits and education for low-income families with infants or toddlers as well as pregnant women. The home visiting program helps connect families to resources they need to ensure their child's healthy development.

Migrant Education (MEP)

The purpose of the Migrant Education Program is to ensure that migrant children fully benefit from the same free public education provided to other children. The MEP helps State and community agencies address the unique educational needs of migrant children to support their academic success. OCDC partners with Migrant Ed to deliver summer programs.

Early Head Start Childcare Partnerships (RX EHS CCP)

OCDC works with childcare partners to provide Early Head Start Child Care Partnerships – where childcare providers work with our team of specialists and experts to elevate the quality of their childcare to meet Early Head Start standards. Children 0-3 years old who are eligible for Early Head Start can attend these year-round, full day services designed to maximize their developmental potential.

ODE Child Nutrition Program

USDA (US Department of Agriculture) provides nutritious meals and snacks to children and low-income families, through the Oregon Department of Education (ODE) Child Nutrition Programs.

A total of 505,325 meals and snacks were provided in OCDC centers in 2022, averaging 14,037 meals/snacks per month.

OCDC sponsors Child Care Home providers in 13 counties for the meals served to children.

The Child Care Home program provided 829,122 total meals for a monthly average of 69,093 in 2022. This included breakfast, lunch, dinner, and a snack.

Community Assessment Summary

In May of 2023, OCDC published the updated second year Community Assessment (in the five-year cycle). This Community Assessment tells the story of Oregon’s least served and most vulnerable families and children over the past few years by looking at the social indicators. Although the COVID-19 Public Health Emergency is slated to expire on May 11, 2023, “Oregonians have lived through experiences in the last two years that will surely shape the future of our state for decades to come: economically, educationally, socially, geographically” (Oregon By the Numbers, 2021).“

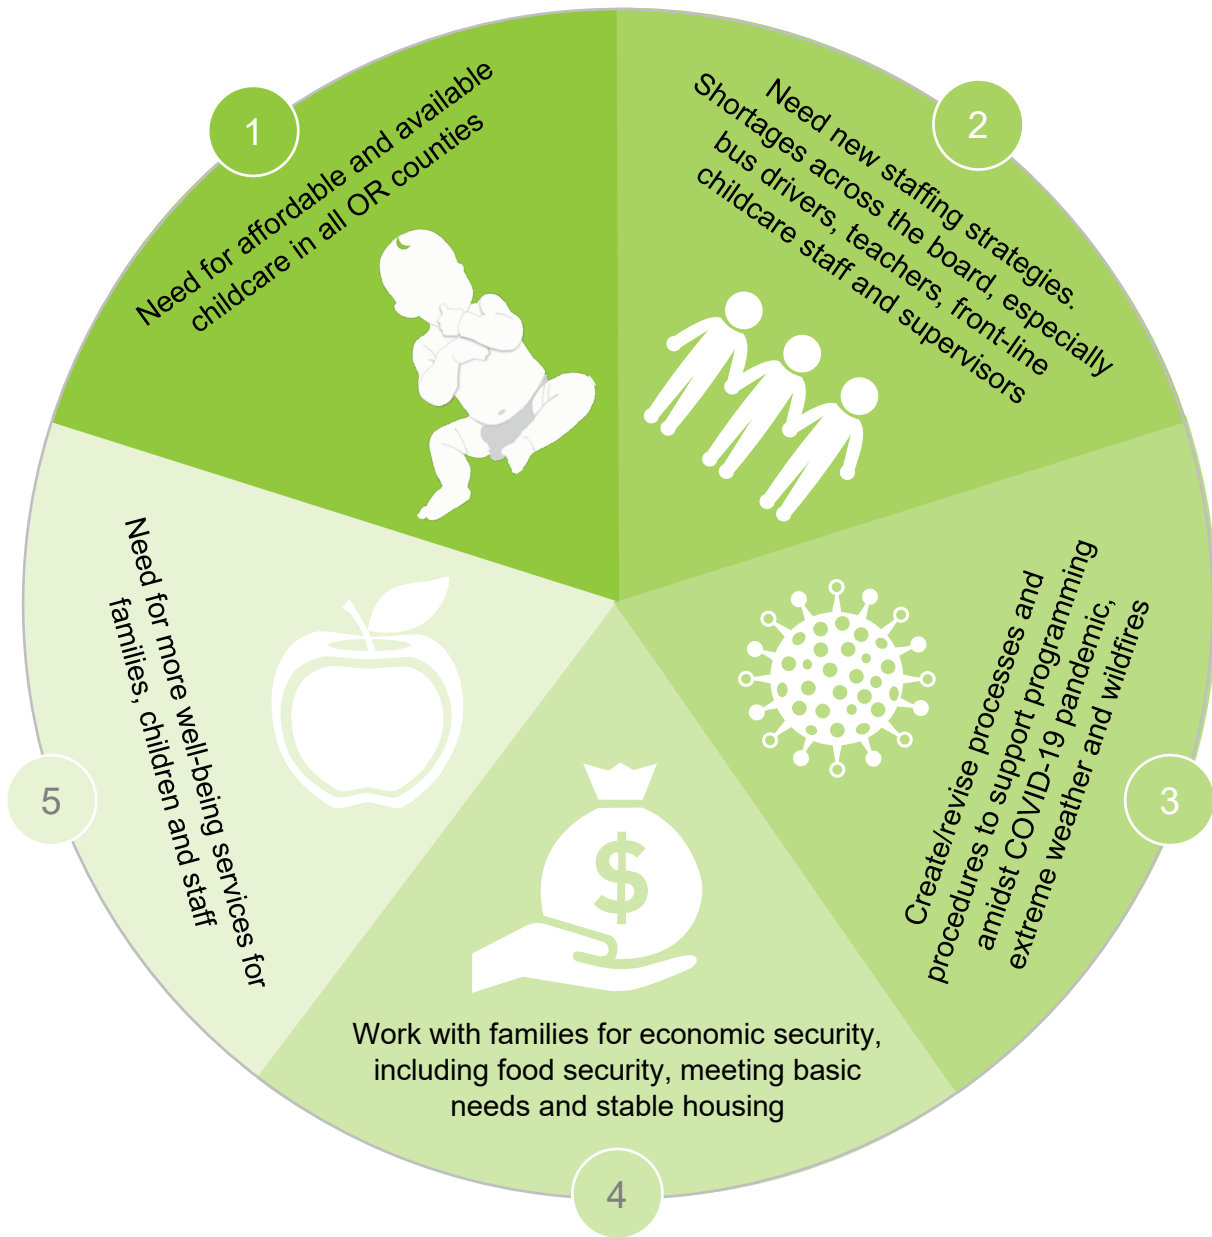

The three major events that impacted Oregon in 2020-2021 – the pandemic, the wildfires, and the extreme weather continue to be at the forefront of Oregon’s issues in 2023. Additionally, staffing, while always an issue in early childhood education, has now hit crisis levels. Food prices have soared. Rent costs are continuing to increase. Upon analysis of the data, the following stood out:

2022 Data Analysis	2023 Data Analysis
Significant number of households in financial hardship	No new data available.
High housing cost burden	Rent costs in Oregon remain exorbitant with the average rent on a 2-bedroom apartment increasing from \$1,307 per month in 2021 to \$1,438 per month in 2022.
US 2022 Federal Poverty Guidelines not in step with the reality of poverty.	In the 2023 US Federal Poverty Guidelines, a family of three is in poverty with a combined income of \$24,860. For Fair Market Rent, where a household doesn’t pay more than 30% of their income towards rent, household must earn \$57,515 annually in 2022, up from \$52,296 in 2021.
U-6 numbers remain high in Oregon even though Oregon’s U-4 numbers align with the national average	Oregon’s U-6 and U-4 numbers have gone down significantly and are now close to notational averages. In 2022, Oregon’s U-6 number was 7.5 while nationally it was 6.9 and Oregon’s 2022 U-4 number was 4.4 with a national number of 3.9.
Childhood poverty / food insecurity	Numbers have reduced, but still 15.4%.

2022 Data Analysis	2023 Data Analysis
Higher number of foster children in rural counties	Trend continues, although the numbers have reduced, there are still almost double the number of children in foster care in rural communities in Oregon than in urban areas.
Need for increased number of immunizations and well-child visits	Still accurate – as of 2019, only 66.4% of Oregon’s children up-to-date on well child visits and only 71% were up-to-date on immunizations.
Children not Kindergarten ready	Average stayed the same – children going into Kindergarten in Oregon could only recognize 7.7 out of the 26 letters of the alphabet.
Social/emotional issues increasing in children, families, and staff.	All available information, including Information Memorandum from the Office Head Start points to staff wellness and child safety as being high priority issues.
No access to childcare slots/no slots at all	All Oregon counties still child-care deserts for infants/toddlers, with 86% of children in 2020 without access to a childcare slot and 68% of children ages 3-5 without access to a childcare slot.
Impacts of COVID-19 on childcare providers (60% closed, Spanish-speaking closed)	Still awaiting more numbers.
Staffing issues (including needing competitive salaries) – transportation, teachers, frontline	Staffing issues continue to be a major issue. Childcare employment in March of 2023 is 5.7% below what it was in February of 2020.
Poverty by race – disproportionate	No new data available.
Teen pregnancy rate for Hispanic/Latina/o/x remains almost triple the rate for whites	Teen pregnancy rate for Hispanic/Latina/o/x remains almost triple the rate for whites.
COVID vaccination rates for Hispanic / Latina/o/x population low	This is no longer an issue. As of 3/01/2023, 82% of Hispanic / Latina/o/x adults in Oregon were vaccinated, up from 58.5% on 1/17/2022. This was after a huge effort by the state to reach these communities.
More and more H-2A farm workers coming in	Huge issue with new, more accurate numbers from the US Citizenship and Immigration Services. The number of H-2A certification skyrocketed from 3,163 in 2021 to 10,009 in 2022.
N/A	Unemployment jumped from 4.2% in 2020 to 7.6% in 2022. However, the job growth number (not available for last year’s CA) is stunning. In 2020, Oregon’s job growth was 7.9 per 1,000 people. In 2020, that number decreased to -32.7!
N/A	We knew that climate, weather, and risk of fires (causing poor air quality) were an issue and reported that as a major finding in the 2022 CA. Data was finally published to support this assertion, with numbers from 2021 showing that Oregon had 7 days of poor air quality, 17 days of extreme heat, an average of 3/10 for risk of wildfires, and the average intensity of drought being 280/500.

2023 Findings / Trends

The following 2023 findings/trends identified in the 2022 Community Assessment remained the same:¹

| 5 Klamath County: Klamath Falls & Malin Centers | 12 Wasco County: The Dalles & St. Mary's (in The Dalles) Centers |
| 6 Malheur County: Nyssa & Ontario Centers | 13 Washington County: Enterprise (in Hillsboro), Jose Pedro & Linden (both in Cornelius) |
| 7 Marion County: Brooks, Concordia (in Salem), Settlemier (in Woodburn), & Silverton Centers | 14 Yamhill County: McMinnville Center |

Public/Private Funds Received

OCDC received \$73,028,590 in public funds and \$5,538 in private funds from 1/01/2022-12/31/2022.

Audit Results

In 2021, the Auditor provided a clean opinion of the OCDC Financial Audit based on review of financial statements resulting in no findings. The Oregon Department of Education conducted the last review of the Oregon Child Development Coalition OPK Program in 2021. There were no deficiencies. (The 12/31/2022 financial statement audit won't be available until September of 2023 as the auditors are scheduled to be onsite in June/July 2023.)

OCDC Grant & Contract Expenses 1/01/2022 - 12/31/2022

TOTAL GRANT EXPENSES: **\$75,424,476**

Kindergarten Readiness Data

Children, staff and family's social and emotional wellbeing and needs are/were the primary focus of School Readiness/Kindergarten Readiness. OCDC provides a variety of opportunities to support preparing children and families for the transition to kindergarten and ongoing school readiness. This includes transition activities to visit the local schools; Kindergarten Teachers visits to OCDC; family nights; Summer school with the public school; and classroom group and individual school readiness activities. Families are an integral partner in any part of the transition planning.

OCDC promotes the social and emotional well-being of children, families, and staff as the priority and primary focus of kindergarten and school readiness with the intensive implementation of the Pyramid Model framework, Second Step Curriculum, and the Early Childhood Mental Health Consultation model.

Agency Child Outcome Data is aggregated primarily from the My Teaching Strategies online data system. OCDC teachers input observations that measure children's developmental progression, or growth, in seven domains of learning: Social and Emotional, Gross Motor, Fine Motor, Language, Cognitive, Literacy, and Math. Each domain of learning has objectives that teachers use to measure the progression of the children's development during the program year.

During the 2021-2022 program year, the pandemic continued to affect OCDC in center services by classroom and sites periodically and unpredictably closing due to COVID-19 positive cases and exposures. As teachers and children over 2 years old had to wear masks in the classroom, language development may have been affected as articulation and sound was not seen/heard. Additional impacts to consideration include: when children started and stopped services due to positive COVID Tests, and staff absences, staff attrition, and staff capacity.

The 2021-2022 Agency Child Outcome Data for:

1. EHS-CCP: The visualizations indicated there were consistent progression of all domains of learning across all three checkpoints except for Social, Emotional, and Literacy. Social, Emotional and Literacy had progressions across the first two checkpoints.
2. Early Head Start: The visualizations indicated there were consistent progression across all the three checkpoints in Social and Emotional; Cognitive; and Spanish Language. In the domains of learning of Language; Literacy; Mathematics; and Physical, development there was consistent progression across the first two checkpoints.
3. Migrant and Seasonal Program: The visualizations indicated there were consistent progression of all domains of learning across all three checkpoints.

Parent Engagement Activities

Parents are involved at all levels of the program:

- Budget and Program planning
- Policy Council Representatives
- Community Representatives
- PFCE (Parent, Family, and Community Engagement) Representatives
- Representatives to Board of Directors

OCDC was on the front line of working with their communities on COVID-19 vaccination efforts. The following are a sampling of the vaccination clinics held:

- 2/04/2022: Polk, South Marion, & Yamhill County: Vaccine & Booster Clinic
- 2/05/2022: Malheur County-Ontario: Vaccine Event at Elk's Lodge
- 2/18/2022: Umatilla County-Hermiston: Boost Your Health! Vaccine Event
- 2/26/2022: Umatilla County-Hermiston: Vaccine Event
- 3/05/2022: Malheur County-Ontario: Vaccine Event at Elk's Lodge
- 6/18/2022: Klamath County-Klamath Falls: Vaccine Clinic & Resource Fair
- 6/15/2022: Malheur County-Ontario: Vaccine Clinic
- 7/23/2022: Klamath County-Klamath Falls: Vaccine Clinic & Resource Fair
- 8/13/2022: Washington County: Vaccine Event
- 8/18/2022: Umatilla County-Milton Freewater: COVID Vaccine Q&A and Clinic
- 9/01/2022: Umatilla County-Hermiston: COVID Vaccine Q&A and Clinic
- 9/29/2022: Polk, South Marion, & Yamhill County: COVID-19 Vaccination Event
- 10/07/2022: Umatilla County: Drive-Thru COVID Vaccine
- 10/22/2022: Umatilla County: COVID-19 & Monkeypox Vaccine Clinic
- 10/29/2022: Klamath County-Klamath Falls: Vaccine Clinic & Resource Fair
- 11/19/2022: Klamath County: Vaccine Clinic & Resource Fair
